1.1 . Chairman’s Review

Achievements

As per the Government fertilizer subsidy program the Colombo Commercial Fertilizers Ltd (CCF Ltd) has been engaged in distribution of 35% of subsidized paddy fertilizers to the farmer community. Apart from the paddy fertilizer, the company distributes fertilizers to other crops also from our Central warehouse and 18 regional stores across the country in accordance with the allocation made by National Fertilizer Secretariat.

During the period of accounting year 2014/15, CCF has imported 139,580 MT fertilizers in all three varieties (Urea, TSP & MOP) and during the same period has distributed 99,896 MT fertilizers for the Paddy Crops, apart from the Paddy fertilizers CCF Ltd has distributed 42,976 MT fertilizers for other field crops. Turnover of CCF during the period under review was Rs. 1,582 million which was generated a net profit of Rs. 282 million after tax. There was a significant changes in the Management of CCF Ltd after January 2015 and accordingly a new Chairman and Board of Directors were appointed by the Government to run the Company in most efficient manner.

Contribution to consolidated fund

During the financial year the CCF has estimated to pay of Rs. 155 million being income tax to the Department of Inland Revenue.

Audit report

The Audit reports on the Financial Statements of the company are given in page 19 to 24.

Financial Statements

The Financial Statements of the company are given on page 25 to 28.

Accounting policies

Accounting policies adopted in the preparation of the Financial Statements of the company are given on page 29 to 42.

Future outlook

The Company has planned to construct a warehouse complex to store fertilizer at Hambantota closer to the Maganhotla Mahinda Rajapaksha Port as a strategy to reduce cost of transport, be nearer to the farmer community in south and reduce the congesting status of Colombo port while using all facilities at this new port.

Acknowledgments

On behalf of the board I take this opportunity to thank Senior Managers, Executives, Clerical and Allied Staff and all the employees of CCF Ltd to achieve the targets of the company. Their hard work, dedication efficiency and commitment to effectively implementing the plans and strategies of CCF Ltd.

I appreciate the co-operation and the contribution extended by the Board of Directors to achieve the targets of CCF Ltd. Specially, I take this opportunity to thank the Director, National fertilizer Secretariat and his staff for their continuous assistance, support and guidance extended in respect of planning fertilizer procurement for the smooth flow of distribution program without any short comings or any complaints. My thanks also goes to the Director General, Department of Treasury Operations and Director General, Development Finance and their Staff for their assistance to settle our LC bills on time. I also thank, the Chairman and the staff of People's Bank Corporate division and Wattala Branch in granting facilities to CCF to establish Letters of credit for the Imports. My thanks are also due to each and every stake holders of the company for their contribution towards the physical and financial progress of this company.

I sincerely grateful to the Honorable Minister of Agriculture, Secretary to the Ministry, all Officials and Staff members of the Ministry of Agriculture and Commissioner General of Agrarian Services, the officers of Agrarian Services Centers across the country, who have extended their valuable assistance and co-operation to discharge our duties for the betterment of farmer community and in general, to the people of our country.

THUSITHA HALLOLUWA
CHAIRMAN
COLOMBO COMMERCIAL FERTILIZERS LTD.

1.5 Corporate governance

CCF operates in very complicated regulatory environment and external mechanisms assert on implementation of state political policy directions. Corporate Governance involves the major issues relating to public policy of national importance and not limited to the narrow interests of shareholders with a direct financial stake in the firm find in private sector.

Arrangements of activities and practices within CCF are determined by the policy and institutional framework of which the CCF operates. State policy framework, state programs, high accounting and auditing standards and well-timed imports and efficient supply of our product- fertilizer are the basic elements that exert disciplinary pressures on CCF. Thus efficient management is the vital factors determining Corporate Governance structures and practices.

In CCF Corporate Governance is more critical and more challenging than in privately owned business enterprises. It is more vital because CCF is engaged in the provision of fertilizer to paddy crops. It is a strategic sectors of the national economy, which affect directly and indirectly to the interests of a entire households of the nation, moreover, ours performance has a direct impact on nations life and macroeconomic stability.

Frame work of corporate governance of CCF

Thorough the above framework of governance CCF achieve the followings

Accountability

The Board of Directors of CCF takes every possible action to fulfill the government objectives and other stakeholders' requirement while protecting the assets and value of the Company;

Oversight

Board of Directors performs administration actively and effectively over management and the operates of CCF to safeguard the best interests of the General Treasury – State and other stakeholders;

Transparency

Board of Directors takes every attempts to disclose information timely and accurately to government authorities, other stakeholders and to the market about the operations, finances and prospects of the company;

Incentives

Board of Directors adopts the policy in recruiting, motivating and retaining the best-qualified personal as its senior management members;

2. Performance highlights

2.1 Market position

With the initiation of Government Fertilizer subsidy Scheme in the year 2005, aiming to distribute main paddy Fertilizers Urea, MOP and TSP. at subsidized price of Rs.7,000 per MT to entire country. Highly competitive open market of paddy Fertilizer with large number of private sector companies were competing each other become exclusive government owned market with CCF Ltd and CFC Ltd. The market for fertilizer for other crops was left for private sector companies.

The Government entrusted to implement these vast operations to its own two companies, i.e. Ceylon Fertilizer Co Limited and CCF. The CCF was allocated about 35% of market share. Since then market roll and strategies of CCF were changed from effective competitor to efficient importer and distributor.

In 2011 Government Fertilizer subsidy Scheme was extended to the fertilizer for other crops too ceiling the prices of other crops fertilizer to Rs. 24,000 per MT. Covering private sector sales too. With the ceiling of prices of other crops fertilizer the important of the price as market strategies was changed and market efficiency becomes the new strategy.

Thus the market strategies of price war were changed into efficient and effective market strategies. CCF too adjusted our strategies accordingly.

2.2 Company performance

In 2014/15 the company achieved the distribution targets and turn over targets set for the year. Weather conditions are always become decisive factor in deciding the extent of cultivation and demand for fertilizer.

2.3 Financial highlights and achievements

2.4 History of the Company

Colombo Commercial Company was a British owned company incorporated in the year 1872 in Great Britain in order to carry out its business operations in Ceylon (Sri Lanka). Since the year 1872, up to 1976, over a period of 100 years this company was managed and administered by the Britishers from their head office based in London.

On 14th January 1976 Government of Sri Lanka vested, Colombo Commercial Company (Fertilizers) Ltd under the Business acquisition Act. No. 35 of 1971 and changed its name as “Government owned Business Undertaking of Colombo Commercial Company (Fertilizers) Limited.”

- After the vesting, this company was managed and administered by the Competent Authority appointed by the Government of Sri Lanka.
- On 04th October 1989, the CCF was converted into public company under Conversion of State Corporations or Business Undertakings into public companies Act. No. 23 of 1987 incorporated and renamed as Colombo Commercial Fertilizers Ltd. The company issued its total share capital of 10,000,000 shares at Rs. 10/= each amounting to Rs. 100,000,000 to Secretary to General Treasury.
- In July 1994 the company was privatized under the policy of then Government and 90% of the shares were transferred to the private management on keeping the balance 10% with the General Treasury with expectation to be transferred to the employees later.
- On 20th January 1997, the shares of the company were re-vested to the General Treasury, under Rehabilitation of Public Enterprises Act. No. 29 of 1996, due to breach of contract between the General Treasury and the private management and labour unrest was prevailed in the company,
- Under re-vesting program administration of the company was placed under a competent Authority and supervision of operation of the company was assigned to then line ministry.
- On 10th June 2011, Board of Directors was appointed for the administration of the Company.

2.5 Events during the year ended 31.03.2014

- Conducting training programs for enhancement of skill of internal staff.
- Initiation of a project in improvement of Information Technology to aiming to expanding to Enterprise Resource Planning system.

3. Management discussion and analysis

Under Government Fertilizer Subsidy program decided to continue to distribute main three fertilizers Urea, MOP and TSP at Rs, 7,000 per MT.

National Fertilizer Secretariat (NFS) is the government arm which decides the fertilizer requirement of the country for paddy cultivation based on the cultivable land under two main season Yala and Maha in accordance with the recommendation made by the relevant research institutions.

Thus paddy fertilizers under Government Fertilizer Subsidy scheme are distributed the direction of the NFS through 557 ASC net - Work Island wide

In 2010 the fertilizer for other corps also were brought under the umbrella of subsidy scheme by controlling the price of one MT to Rs. 24,000

Government has set the sales prices as

Subsidized paddy fertilizer at	Rs. 7,000 per MT
Subsidized other crop direct fertilizer at	Rs. 24,000 per MT
Subsidized other crop mixed fertilizer at	Rs. 26,000 per MT

Sales discounts for FY 2014/15

As determined by NFS, for purchases of one M.T. of paddy by ACS are given discounts on the following basis

Rs. 330 for purchase made from DFSs

Rs. 314 for purchases from stores complex at Hunupitiya for ACS situated beyond 30 KM from Hunupitiya

Rs. 290 for purchases from Hunupitya with approval of NFS

CCF operates as one of two main government fertilizer distributors for paddy cultivation in Sri Lanka. NFS has allocated to CCF to distribute and sell about 35% of total paddy fertilizer requirements to paddy cultivation.

CCF deals very limited quantity of other crop fertilizer

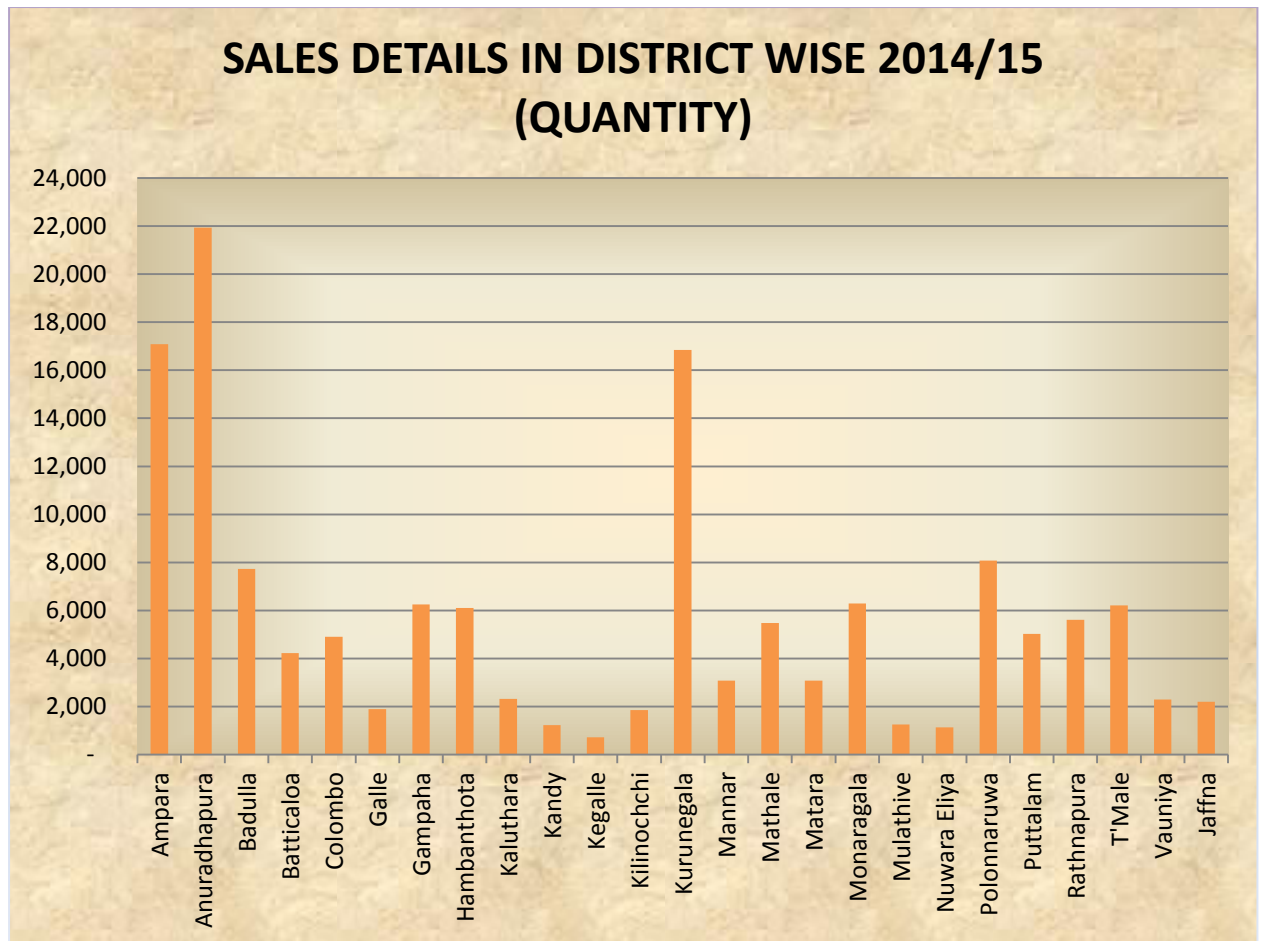

3.1 Business review

Participation in distribution of paddy subsidy and sales of other fertilizer during last two was as follows:

Type of Fertilizer	Total quantity MT	
	2014/15	2013/14
Urea Paddy	64,292.675	61,465.800
MOP Paddy	19,561.000	18,477.700
TSP paddy	16,042.200	15,987.700
Urea Other crops	31,304.684	14,006.115
MOP other crops	5,893.061	3,431.941
TSP other crops	5,778.332	2,586.582
Other fertilizers	589.116	506.662

Sales made during financial year 2014/15 in accordance with the districts

Sales operations are carried out in 25 districts under 18 sub stores the highest sales volume was achieved in Ampara district and Anuradahapura District as shown in the chart and the table.

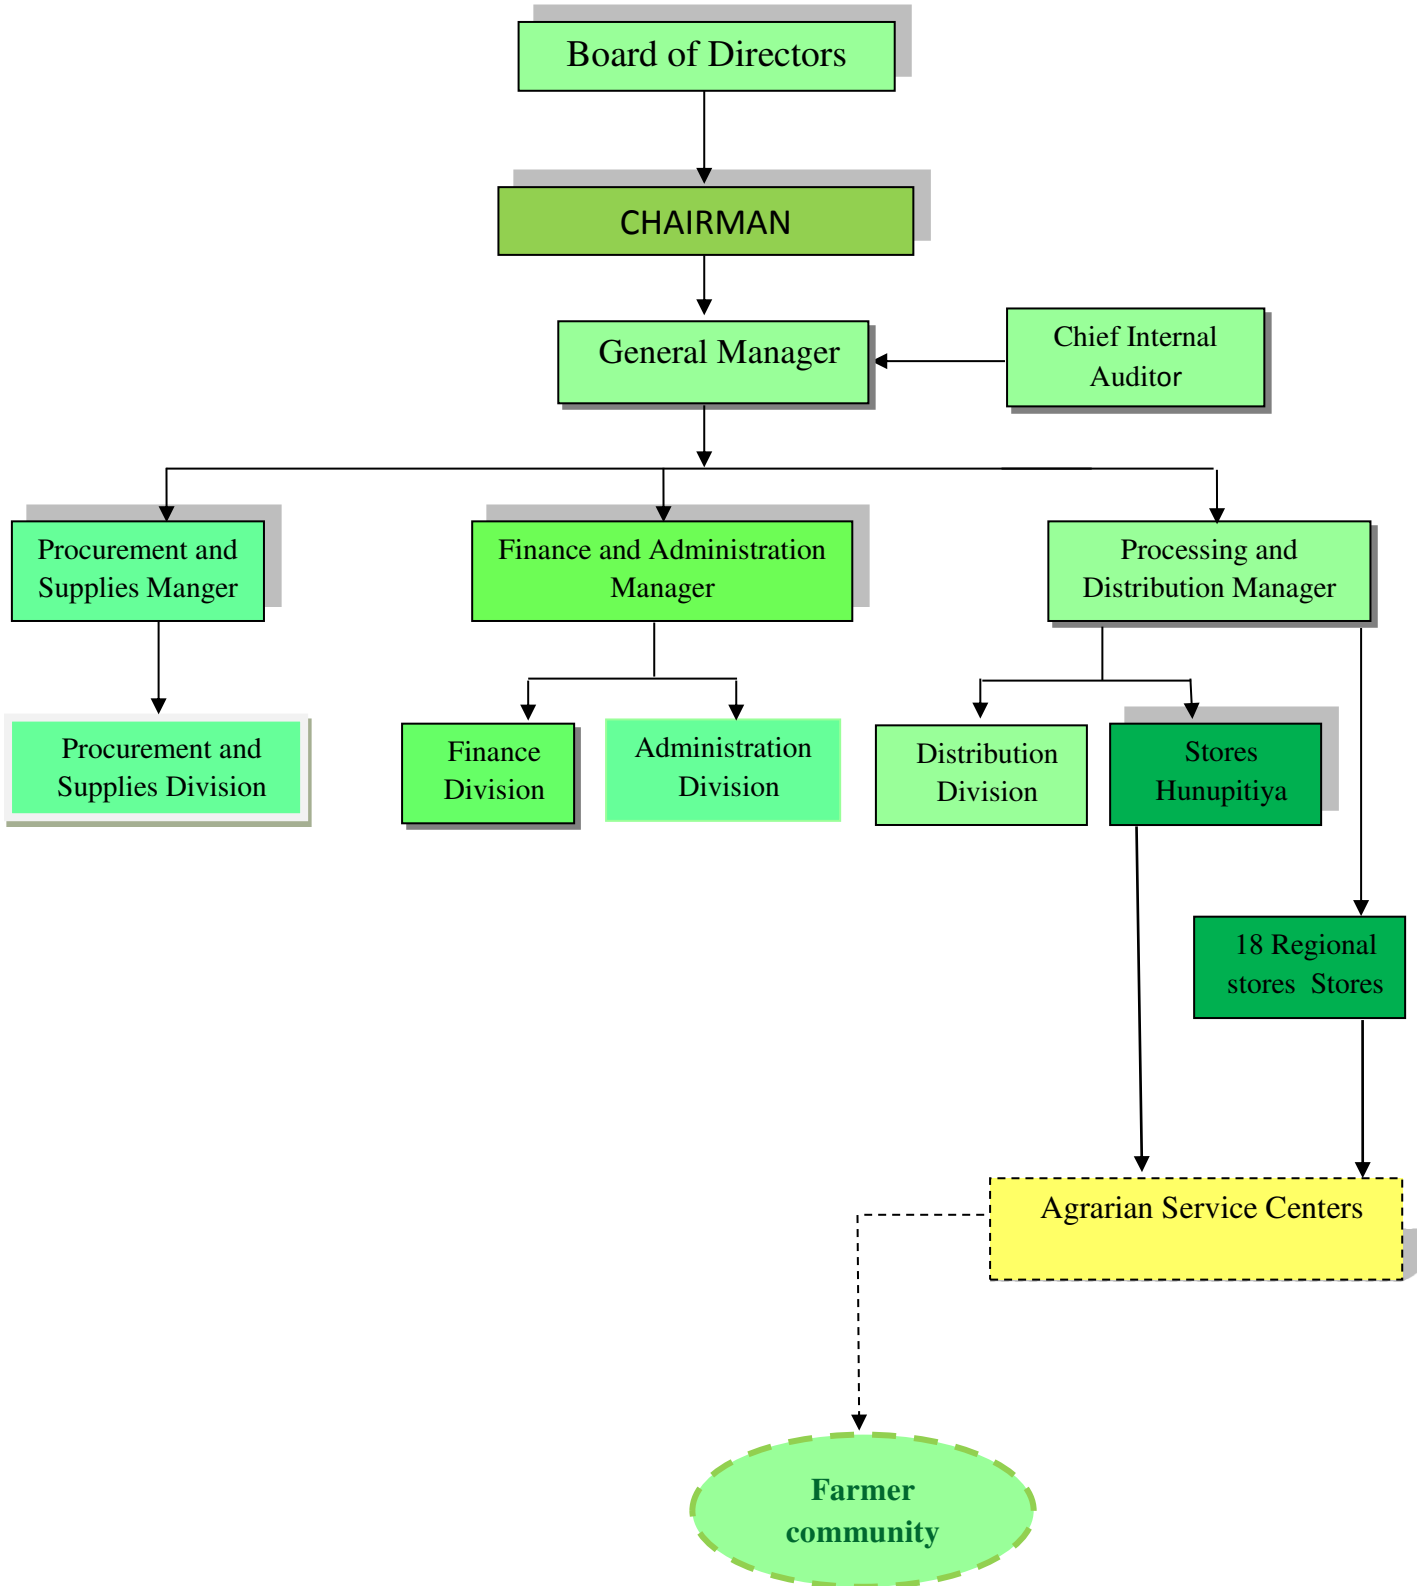

SALES DETAILS IN DISTRICT WISE. (QUANTITY)

District	Type of fertilizer in (MT)			Total (MT)

Statement of Directors' Responsibilities

The Directors are responsible under Sections 150 (1), & 151 of the Companies Act No. 07 of 2007, to ensure compliance with the requirements set out therein to prepare Financial Statements for each financial year giving a true and fair view of the state of affairs of the Company as at the end of the financial year and of the comprehensive income statement of the Company for the financial year.

The Directors are also responsible, under Section 148, for ensuring that proper accounting records are kept to enable for determination of financial position with reasonable accuracy, preparation of Financial Statements and audit of such statements to be carried out readily and properly.

The Board accepts responsibility for the integrity and objectivity of the Financial Statements presented. The Directors confirm that in preparing the Financial Statements, appropriate accounting policies have been selected and applied consistently while reasonable and prudent judgments have been made so that the form and substance of transactions are properly reflected.

They also confirm that the Financial Statements have been prepared and presented in accordance with the Sri Lanka Financial Reporting Standards (SLFRS), Sri Lanka Accounting Standards (LKAS) and Companies Act No. 07 of 2007.

Further, the Financial Statements provide the information required by the Companies Act.

The Directors are of the opinion, based on their knowledge of the Company, key operations and specific inquiries that adequate resources exist to support the Company on a going concern basis over the next year. These Financial Statements have been prepared on that basis.

The Directors have taken reasonable measures to safeguard the assets of the Co. and, in that context, have instituted appropriate systems of internal control with a view to preventing and detecting fraud and other irregularities. As required by Section 56 (2) of the Companies Act, the Board of Directors has authorised distribution of the dividend now proposed, being satisfied based on information available to it that the Company would satisfy the solvency test after such distribution in accordance with Section 57 of the Companies Act, and have sought in respect of the dividend now proposed, a certificate of solvency from the Auditors.

The report of the Auditors, shown on page 19 on words sets out their responsibilities in relation to the Financial Statements.

Compliance Report

The Directors confirm that to the best of their knowledge, all statutory payments relating to employees and the Government that were due in respect of the Company as at the Financial Position date have been paid or where relevant, provided for.

Chairman's and Financial Manager's Responsibility Statement

The Financial Statements of Colombo Commercial Fertilizers Ltd., as at 31st March 2015, are prepared and presented in compliance with the requirements of the following.

- Sri Lanka Financial Reporting Standards and Sri Lanka Accounting Standards issued by the Institute of Chartered Accountants of Sri Lanka;
- Companies Act No. 07 of 2007;
- Code of Best Practice on Corporate Governance issued by the General Treasury

We confirm that the significant accounting policies used in the preparation of the Financial Statements are appropriate and are consistently applied, as described in the Notes to the Financial Statements. The prescribed Accounting Standards have been adopted without any deviations. The significant accounting policies and estimates that involved a high degree of judgment and complexity were discussed with the Audit Committee and our External Auditors.

We have also taken proper and sufficient care in installing systems of internal control and accounting records, to safeguard assets, and to prevent and detect frauds as well as other irregularities. These have been reviewed, evaluated and updated on an ongoing basis. Reasonable assurances that the established policies and procedures of the Company have been consistently followed were provided by periodic audits conducted by company's internal auditors. However, there are inherent limitations that should be recognised in weighing the assurances provided by any system of internal controls and accounting.

The Audit Committee of the Company meets periodically with the Internal Auditors and the Independent Auditors to review the effectiveness of the audits, and to discuss auditing, internal control and financial reporting issues. The Independent Auditors and the Internal Auditors have full and free access to the Audit Committee to discuss any matter of substance.

The Financial Statements were audited by Auditor General of Democratic Socialist Republic of Sri Lanka

.....
Thussitha Halloluwa
Chairman

.....
H.N. Ariyadasa
Finance Manager

The Chairman
Colombo Commercial Fertilizer Limited

Report of the Auditor General on the Financial Statements of the Colombo Commercial Fertilizer Company Ltd for the year ended 31 March 2015.

The audit of financial statements of the Colombo Commercial Fertilizer Company Ltd for the year ended 31 March 2015 comprising the statement of financial position as at 31 March 2015 and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information was carried out under my direction.

1.2 Management's Responsibility for the Financial Statements

The management is responsible for the preparation and fair presentation of these financial statements in accordance with Sri Lanka Accounting Standards and for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatements whether due to fraud or error.

1.3 Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Sri Lanka Auditing Standards consistent with International Auditing Standards of Supreme Audit Institutions (ISSAI 1000-1810). Those Standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

2. Financial Statements

2.1 Opinion

In my opinion, the financial statements give a true and fair view of the financial position of the Colombo Commercial Fertilizer Company Ltd as at 31 March 2015 and its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

2.2 Comments on Financial Statements.

2.2.1 Sri Lanka Accounting Standards

In accordance with Sri Lanka Accounting Standard 19, retirement benefits for the year under review had not been accounted by computing as per the projected unit credit method after identifying present day service costs, interest costs and actuarial profits and losses.

2.2.2 Non-reconciliations

According to the stock books of the main stores at Hunupitiya, the stock of fertilizer was 23,911.22 Metric Tons as at 31 March 2015. However, a difference of 388.27 Metric Tons were observed as it was 23,522.95 Metric Tons according to the financial statements.

2.3 Accounts receivable

The following observations are made.

- (a) The trade debtors balance as at 31 March 2015 amounted to Rs. 56,957,862 including the loan balance of Rs. 11,791,091 receivable from 45 Agrarian Services Centers. Of that, a sum of Rs. 5,281,596 receivable from 24 Agrarian Services Centers was more than 05 years old, and action had not been taken adequately to recover those loan balances.
- (b) A sum aggregating to Rs. 8,042,989 remained recoverable from the Ceylon Fertilizer Company since 2007/2008 up to 2010/2011, had not been recovered even up to the end of the year under review.
- (c) Even though a sum of Rs. 25,761,062 had been provided for impairments of debtors, approval of the Board of Directors had not been obtained in that connection.
- (d) Action had not been taken to recover loan balances amounting to Rs. 36,171,884 due since the period prior to the commencement of the fertilizer subsidy scheme.

2.4 Non-compliances with Laws, Rules, Regulations, and Management Decisions

The following non-compliances with Laws, Rules, and Regulations were observed.

Reference to Laws, Rules and Regulations	Non-compliance
-----	-----
(a) Management Services Circular, No. 05/2014 of 21 November 2014, and Section 3.3 of Public Finance Circular, No. PF/PE/21 dated 24 May 2002.	Despite being stated that the annual Accounts should be presented to the Auditor General on time in order to pay the bonus , accounts for the year 2013/2014 had been presented on 04 August 2014 with a delay of 03 months. Nevertheless, a sum of Rs. 1,219,500 had been paid as bonus at Rs. 13,500 per employee.
(b) Government Procurement Guidelines	
(i) Paragraph 5.4.8 (a)	The suppliers should provide a performance bond not less than 5 per cent of the estimated contract sum. However, 03 instances where performance securities had not been provided by transport contractors, were observed.
(ii) Paragraph 5.4.8 (b)	In spite of being stated that the securities provided by the contractors should be valid till 28 days beyond the intended date of completion of work, 14 instances, in which performance securities valid till 28 days after the completion of work had not been obtained, were observed.

2.5 Transactions not Supported by Adequate Authority

The following observations are made.

- (a) In spite of the recommendation made by the Board of Directors' meeting held on 22 December 2014 that approval of the Treasury should be obtained to make payments for the supply of transport facilities to a farmers' summit held in January 2015, a sum of Rs. 1,080,000 had been paid to the Board on 29 December 2014 without obtaining such an approval.
- (b) Without obtaining the approval of the National Fertilizer Secretariat, 4,771.04 Metric Tons of fertilizer used in paddy cultivation had been sold to be used for other cultivations in the year 2013/2014, whereas, 4771.04 Metric Tons of fertilizer imported in the year 2014/2015 to be used for other cultivations, had been transferred to fertilizer used in paddy cultivation.

3. Financial Review

3.1 Financial Results

According to the financial statements presented, the financial result of the operations of the Company during the year under review had resulted in a pre-tax net profit of Rs.436,529,170 as compared with a pre-tax net profit of Rs.208,984,673 for the preceding year. Thus, an improvement of the financial result amounting to Rs. 227,544,497 was observed in comparing the profit of the year under review with that of the preceding year. This improvement had mainly been contributed by the increase in sales and subsidies by Rs. 162,951,183, and other income by Rs. 74,184,116.

3.2 Analytical Financial Review

The following variances were observed in comparing the financial results of the year under review with that of the preceding year.

- (a) Due to the increase in sales of fertilizer used in paddy cultivation by 8 per cent and other crops by 106 per cent in the year under review, the overall sales had increased by 50 per cent.
- (b) As the profit margin per Metric Ton of fertilizer used in paddy cultivation was Rs. 350 and Rs. 4,000 for other cultivations, sales of fertilizer used in other cultivations had increased by 116 per cent. Hence, the gross profit had increased by 374 per cent.
- (c) As the Treasury had not paid the fertilizer subsidy on time, the Company had obtained short term loans amounting to Rs. 6,715,562,085 for settling the exchange bills representing an increase of 156 per cent as compared with the preceding year.

4. Operating Review

4.1 Management Inefficiencies

Under the Issue order 56690, the fertilizer stores at Sapugaskanda had sent 17.5 Metric Tons of Urea to the stores in Akkarapattu on 03 December 2014. The Goods Receipt Note (GRN) bearing number 56521 had been issued to the effect that the stock of fertilizer had been handed over to the stores and accepted therein on 11 February 2015. The agreement number printed on the bags of fertilizer dispatched to the regional stores was 2014/CCF/UR/02, whereas the agreement number printed on the bags accepted by the stores was 2014/CCF/UR/07. The difference of the agreement numbers printed on bags of fertilizer had remained questionable in audit.

4.2 Operating Inefficiencies

The following observations are made.

- (a) A stock of fertilizer weighing 16.69 Metric Tons that had been received by the regional stores in Kantale on 05 August 2011 under the fertilizer subsidy scheme for other crops, had remained unsold even as at 05 January 2015.

- (b) It was observed that 7.8 Metric Tons of fertilizer for other crops received by the regional stores in Kandy on 27 January 2014, was slow-moving.
- (c) Ten instances were observed in audit where 05 contractors who accepted to provide transport for 10 districts in the year under review had continuously failed to provide Lorries adequately. However, action had not been taken to recover fines at Rs. 1,500 per day in accordance with Section 03 of the transport agreement.

4.3 Transactions of Contentious Nature

The following observations are made.

- (a) A sum of Rs. 575,000 had been given as grants to welfare organizations during the year under review contrary to objectives.
- (b) A sum of Rs. 11,008,504 had been paid to the staff of the Company as incentives during the year under review without approval of the Treasury, including a sum of Rs. 180,000 paid as an incentive to the Chairman who was not an employee of the Company.

4.4 Identified Losses

The following observations are made.

- (a) Stocks losses valued at Rs. 11,450,095 had incurred in the year under review in transit and due to substandard packaging.
- (b) A stock shortage of 90.75 Metric Tons costing Rs. 5,019,471 had been reported at the physical stocks verification carried out at 2 regional stores during the year under review. Nevertheless, action had not been taken to recover them from the parties responsible.
- (c) As the selected transport contractors had not provided lorries adequately for transporting fertilizer in Anuradhapura and Hambanthota districts in the year under review, a sum of Rs. 2,725,513 had been paid as additional transport charges for transporting fertilizer using external lorries.

4.5 Un-economic Transactions

The stocks at the fertilizer stores in Sapugaskanda which had been obtained on lease with effect from 12 May 2014, had exhausted since 03 December 2014. However, lease rent amounting to Rs. 1,774,271 had been paid for 2 months up to 11 February 2015 for the empty stores without taking steps to hand over the stores.

4.6 Weaknesses in Contract Administration

The following observations are made.

- (a) A newspaper advertisement had been published in July 2013 at a cost of Rs. 23,184 calling for quotations in order to maintain the labour services of the Company from September 2013 to August 2014. Another advertisement had been published in the same newspaper on the following day incurring a sum of Rs. 10,080 in order to nullify the previously published advertisement without justification, and the labour contract had been awarded to a private contractor from 2012 up to the year under review continuously.
- (b) Procurement for the construction of a vehicle park at the Head Office
- (i) Service of a qualified person had not been obtained for the preparation of detailed estimates, BOQ s and designs for the aforesaid construction.
 - (ii) Only a period of 08 days had been allowed to present bids contrary to Paragraph 6.2.2 of the Government Procurement Guidelines. A sum of Rs. 669,773 had been paid sans a certification from an engineer / consultant on the completion of work in accordance with 8.12.2 of Procurement Guidelines.
 - (iii) Furthermore, the officer who prepared the estimates and designs, had also participated as a member of the Technical Evaluation Committee.

5. Accountability and Good Governance

5.1 Unresolved Audit Paragraphs

The necessity for the preparation of an incentive scheme for the Company under the approval of the Treasury had been emphasized at the Committee of Public Enterprises meeting held on 05 July 2012. However, approval of the Treasury had not been obtained until 20 August 2015 for the scheme that had been prepared by 31 October 2014.

6. Systems and Controls

Deficiencies in the systems and controls observed during the course of audit were brought to the notice of the Chairman of the Company from time to time. Special attention is needed in respect of the following areas of control.

- (a) Maintenance of Personal Files
- (b) Stores Control
- (c) Distribution Process
- (d) Control of Vehicles

Notes to the Financial Statements for the year ended 31 March 2015

1 Corporate Information

1.1 Reporting entity

The Colombo Commercial Fertilizers Limited (the “Company”) is a Limited Liability company incorporated on 04 10 1989 under act No. 17 of 1982 and reregistered on 15.07.2011 under the companies Act No. 7 of 2007, and domiciled in Sri Lanka and owned by the Government of Sri Lanka.

The registered office and principle place of business of the company is located at Hunupitiya, Wattala.

1.2 Company

The company primarily involved in importing, blending and marketing fertilizer required for paddy, tea, coconut, rubber and other crops.

1.3 Financial years

The Company’s financial reporting period ends on 31st March.

1.4 Date of authorization for issue

The Board of Directors of the Company is responsible for the preparation and presentation of the Financial Statements. The financial statements of the Company for the year ended 31 March 2015 were authorized for issue in accordance with a resolution of the Board of Directors dated November 08, 2014.

1.5 Number of employees

The number of employees of the Company

	31st March 2015	31st March 2014
• Executive Staff	- 19	• Executive Staff - 19
• Clerical & Allied	- 106	• Clerical & Allied - 102
• Labour	- 12	• Labour - 12
	137	133

2. Basis of preparation

2.1 Statement of Compliance

The Financial Statements have been prepared in accordance with Sri Lanka Accounting Standards (referred to as SLFRS), issued by The Institute of Chartered Accountants of Sri Lanka (CASL) and the requirements of the Companies Act No. 07 of 2007 and Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995.

2.2 Basis of Measurement

The Financial Statements have been prepared on the historical cost basis, except for the following material items in the statement of financial position

- Land and buildings stated at valuation done on 12.03.2007
- Financial instrument at fair value through profit and loss are measured at fair value
- Defined benefit obligation is measured after actuarially valuing and the present value of the defined benefit of obligation is recorded

2.3 Functional and Presentation Currency

The financial statements are presented in Sri Lankan Rupees,(LKR) which is the functional currency of the Company and used in primary economic environment of in which the entity operates. All financial information presented in Sri Lankan Rupees which has been rounded to the nearest rupees unless stated otherwise

2.4 Use of Estimates and Judgments and Assumptions

The preparation of financial statements in conformity with Sri Lanka Accounting Standards (SLFRS/LKAS) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

2.4.1 Revaluation of Property, Plant & Equipment

The Company carries its land at revalued amounts with changes in fair value being recognized in other comprehensive income. The Company engaged Government valuer to determine fair value as at 12.03.2007. Further details of the land are explained in Note 20.

2.4.2 Impairment of Non-Financial Assets

Impairment exists when the carrying value of an asset or cash-generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in arm's length transactions of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model.

2.4.3 Retirement Benefits

The cost of defined benefit plan is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexity of the valuation and the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2.4.4 Fair Value of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

3. Summary of Significant Accounting Policies

The accounting policies set out below have been consistently applied to all periods presented in these Financial Statements.

3.1. Foreign Currency

3.1.1 Foreign Currency Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at functional currency spot rate at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in Property, plant and equipment are tangible items that are held for use in the production or supply of goods or services, for rental to others or for administrative purposes and are expected foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date. All differences of gains and losses arising on settlement or translation of monetary items are recognized in the statement of comprehensive income.

Translation differences related to changes in amortized cost are recognized in the statement of comprehensive income.

3.2. Property, Plant and Equipment

Property, plant and equipment are tangible items that are held for use in the production or supply of goods and services, for rental to others for administrative purposes and are expected to be used during more than one period.

Items of Property, plant and equipment are measured at cost accumulated depreciation and accumulated impairment losses, if any, whilst land is measured at fair value.

3.2.1 Basis of Recognition

Property, plant and equipment are recognized if it is probable that future economic benefits associated with the assets will flow to the Company and cost of the asset can be reliably measured.

3.2.2. Initial Recognition and Measurement

Property, plant and equipment are initially recognized at cost including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended.

The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use and the costs of dismantling and removing the items and restoring the site on which they are located.

3.2.3 Subsequent Costs

Subsequent expenditure is capitalized only when it is improbable that the future economic benefits associated with the expenditure will flow to the Company. Ongoing repairs and maintenance are expended as incurred.

3.2.4 Revaluation Model

The Company applies the revaluation model to the entire class of freehold land and buildings. Property plant and equipment were carried at fair valued amount, being their fair value at 12.03.2007 the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Property, plant and equipment of the Company were carried at revalued amount in the Statement of Financial Position prepared in accordance with SLAS prior to 31 March 2012.

3.2.5 Election of Cost Model

The Company has elected revalued amount of property, plant and equipment except land and buildings as deemed cost at 12.03.2007 the date of the revaluation. Accordingly the property, plant and equipment except land and buildings are stated at deemed cost less accumulated depreciation and any accumulated impairment losses.

The Company measures land and buildings at revalued amounts and changes in fair value was recognized in the statement of equity. The Company engaged Government Chief Valuer to determine fair value of land and buildings in 12.03.2007

3.2.6. Derecognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property, plant and equipment is included in Statement of Income when the item is derecognized. When replacement costs are recognized in the carrying amount of an item of property, plant and equipment, the remaining carrying amount of the replaced part is derecognized.

3.2.8. Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or the date that the asset is derecognized. Depreciation does not cease when the assets become idle or is retired from active use unless the asset is fully depreciated.

Land is not depreciated; depreciation on other assets is calculated at the following rates on a straight line method over the periods appropriate to the estimated useful lives based on the pattern in which the asset's future economic benefits are expected to be consumed by the Company.

Their estimated useful lives and residual values are reviewed at each reporting date: The estimated useful lives of the current and comparative periods are as follows

Buildings	20 Years
Plant and Machinery	05 Years
Motor Vehicles	05 Years
Office Equipment	05 Years
Office Furniture	10Years
Workshop Tools	05 Years
Lab Equipment	05 Years
Computer Accessories	05 Years

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

3.2.9 Impairment of Non-Financial Assets

The carrying value of the company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of comprehensive income.

In respect of other assets except goodwill, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decrease or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, if no impairment loss had been recognized.

3.3 Intangible assets

Purchased software that is integral to the functionality of the related equipment is capitalized as part of computer equipment.

3.4 Capital work-in-progress

Capital expenses incurred during the year which are not completed as at the balance sheet date are shown as capital work-in-progress, whilst the capital assets which have been completed during the year and in use have been transferred to property, plant & equipment.

3.5 Current Assets

Assets classified as current in the Statement of financial position are cash and bank balances and those which are expected to be realized in cash during the normal operating cycle or within one year from the Statement of financial position date whichever is shorter.

3.5.1 Inventories - Direct and Mixed Fertilizers

Inventories (Direct and Mixed Fertilizers) are stated at cost minus subsidy amount. Cost is determined using the first-in, first-out (FIFO) method. The cost of mixed fertilizer comprises raw materials, direct labour, other direct costs and related production overheads. Inventories purchased locally are stated at cost. Net realizable value is the subsidized value in the ordinary course of business, less applicable selling expenses.

Packing material and Consumable items are stated at cost

3.6. Financial Instruments

3.6.1 Non Derivative Financial Assets

Initial recognition and measurement

Financial Assets are recognized when and only when, the company becomes a party to the contractual provisions of the financial instruments. The company determines the classification of its financial assets at initial recognition. When financial assets are recognized they are measured at fair value plus directly attributable transaction costs, however in the case of financial assets classified at fair value through profit and loss, directly attributable transaction costs are not considered

Classification and Subsequent measurement

At inception a financial asset is classified in one of the following categories.

- a. Held-to- Maturity Investment
- b. Loans and receivable
- c. At fair value through profit or loss.
- d. Available- for- sale

3.6.1.1 Held-to- Maturity Investment (HTM)

HTM investments are non-derivative financial assets with fixed or determinable payments and fixed maturity other than loans and receivables. Investments are classified as HTM if the Company has the positive intent and ability to hold them until maturity and which were not designated as at fair value through profit or loss or as available-for-sale. HTM investments are record under current assets.

3.6.1.2 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and the Company does not intend to sell immediately or in the near term. Loans and receivables are included in current assets, except for maturities greater than 12 months after the end of the reporting period, which are classified as non-current assets. The Company's loans and receivables comprise subsidy receivables, trade and other receivables, repurchase government securities, fixed deposits, prepayments, advances, deposits, loans to employees and cash and cash equivalents in end of the reporting period.

During the financial year there were no assets classified as Fair value through profit and loss and Available for sale.

3.6.2. Subsequent Measurement

The subsequent measurement of financial assets depends on their classification as described below:

3.6.2.1. Held-to- Maturity Investment (HTM)

HTM investments are measured subsequently at amortized cost using the effective interest method. Amortized cost is computed taking into account the discount or premium on acquisition and transaction costs.

3.6.2.2. Loans and receivables

Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less allowances for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the (Effective Interest Rate) EIR. The EIR amortization is included in profit or loss as finance income.

3.6.2.3 Derecognition

The Company derecognizes financial asset when the contractual rights to the cash flows from the financial asset expires, or when it transfers the financial asset in a transaction in which substantially.

all the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Company is recognized as a separate asset or liability in the Statement of Financial Position. On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and consideration received (including any new asset obtained less any new liability assumed) is recognized in profit or loss. Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

3.6.3 Impairment of Financial Assets

Assets carried at amortized cost

For financial assets carried at amortized cost, the Company assesses at the end of each reporting period whether there are objective evidences exist individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

A financial asset is impaired and impairment losses are incurred only if there is objective evidence that an impairment loss has been incurred, as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

For loans and receivables and held-to-maturity investments carried at amortized cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the financial assets is reduced and the amount of the loss is recognized in the statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the statement of comprehensive income

The Company considers evidence of impairment for receivables at both specific asset and collective level. All individually significant receivables are assessed for specific impairment. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment the company - uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgments as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

Losses are recognized in profit or loss and reflected in an allowance account against loans and receivables. When a subsequent event (e.g. repayment by a debtor) causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

3.7 Financial Liabilities

3.7.1. Non derivative financial liabilities

3.7.1.1 Initial recognition and measurement

Financial liabilities within the scope of SLFRS/LKAS are recognized when and only when the company becomes a party to the contractual provisions of the financial instrument. Financial liabilities are recognized initially at fair value plus in case of financial liabilities which can be classified in to two categories as financial liabilities at fair value through profit and loss and other financial liabilities. Company has classified its financial liabilities in to other financial liability category.

3.7.2 Offsetting

Financial assets and liabilities are offset and the net amount presented in the Consolidated Statement of Financial Position when, and only when, the Company has a legal right to set off the recognized amounts and it intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted under LKASs/SLFRSs, or for gains and losses arising from a group of similar transactions such as in the Company's trading activity.

3.8 Trade Receivables

Trade receivables are amounts due from customers for sale of goods in the ordinary course of business. Collection is expected in the normal operating cycle of the business and they are classified as current assets. Trade receivables are recognized initially at fair value, which is the invoice value.

Trade receivables are recognized initially at fair value, which is the invoice value and subsequently measured at the original invoice value less impairment.

The Company assesses at the end of each reporting period whether there is objective evidence that trade receivables are impaired. Objective evidences of impairment for trade receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments past the maximum credit period of 90 days. Trade receivables are impaired and impairment losses are incurred, only if there is objective evidence of impairment. All trade receivables are assessed individually for impairment.

The model and basis used to assess the trade receivables for impairment is as follows:

Individual Evaluation Model: Following types of trade receivables are reviewed individually to measure the impairment loss.

- i. Multi Purpose Co-operative Societies
- ii. Agrarian Service Centers
- iii. Authorized Dealers
- iv. Government Institutions and Departments

3.9 Cash and Cash Equivalents

In the statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

3.10 Stated Capital

Ordinary shares issued to the General Treasury, General Treasury Government of Sri Lanka are classified as equity.

3.11 Trade and Other Payables

The Company's other financial liabilities include borrowings, trade and other payables and bank overdraft. Trade and other payables are recognized initially at fair value, which is the transaction price and subsequently measured at the original invoice value as they are expected to be paid within a short period, such that the time value of money is not significant.

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities as in the normal operating cycle of the business.

3.1 Borrowings

3.12.1. Initial recognition

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost using the effective interest method.

3.11.2. Subsequent measurement and recognition

The Company classifies on derivative financial liability into the other financial liabilities category. Such financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities including interest bearing loans and borrowings are measured at amortized cost using the effective interest method. Gains and losses are recognized in profit or loss when the liabilities are derecognized

3.12 Borrowing Cost

Borrowing costs are recognized in the statement of comprehensive income in the period in which they are incurred.

3.13 Government Grants and subsidy

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Fertilizer subsidies relating to import costs are recognized in the statement of comprehensive income to match them with the costs that they are intended to compensate. Fertilizer subsidies to compensate for import costs already incurred are recognized as subsidy receivable where there is a reasonable assurance that the subsidy will be received.

Notes to the Financial Statements for the year ended 31 March 2015

Government grants relating to property, plant and equipment are included in noncurrent liabilities as deferred government grants and are recognized in the statement of comprehensive income on a straight-line basis over the expected lives of the related assets.

3.13 Corporate tax and differed Taxes

The Company is subjected to income taxes. The Company recognizes liabilities for anticipated taxes based on estimates of taxable income where the final tax outcome may be different from amount that were initially recorded them. This different will be affected to its current and differed income tax. Such difference will impact the current and differed income tax assets and liabilities in the period in which determination is made.

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statement of comprehensive income statement, except to the extent that it relates to items recognized or items recognized directly in equity or in other comprehensive income. In this case, the tax is also recognized in other comprehensive income.

3.13.1 Current

The current income tax charge is the expected tax payable or receivable on the taxable income or loss for the year calculated on the basis of the tax rates and tax laws enacted or substantively enacted at the reporting period end applicable for the Company and any adjustment to tax payable in respect of previous years. Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss.

Management evaluates periodically where appropriate on the basis of amounts expected to be paid to the tax authorities. With respect to situations in which applicable tax regulations subjected to interpretation and establishes provisions where appropriate

3.13.2 Deferred Tax

Deferred tax is recognized in respect of the taxable temporary differences arising between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes or the tax bases of assets and liabilities and their carrying amounts in the financial statements except for;

(a). the initial recognition of goodwill; or

(b). the initial recognition of an asset or liability in a transaction which:

i. is not a business combination: and

ii. at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred tax is determined using tax rates that have been enacted at the reporting period end date and are expected to apply when the related deferred tax asset is realized or the deferred income tax liability is settled.

Notes to the Financial Statements for the year ended 31 March 2015

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized.

3.14 Employee Benefits

The Company has both defined contribution plans and defined benefit plan

3.14.1 Defined Contribution plan

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity. The Company has no legal or constructive obligations to pay further contributions. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the income statement in the periods during which services are rendered by employees

3.14.2 Employees' Provident Fund

The company and employees contribute 12% and 10% respectively of the salary of each employee to the Employees Provident Fund. Managed by the Central Bank of Sri Lanka.

3.14.3. Employees' Trust Fund

The company contributes 3% of the salary of each employee to the Employees' Trust Fund managed by Central Bank of Sri Lanka.

3.14.4 Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The company is liable to pay retirement benefits under the Payment of Gratuity Act, No 12 of 1983. The liability recognized in the financial statements in respect of defined benefit plans is the present value of the defined benefit obligation as at the reporting date. The defined benefit obligation is calculated by qualified actuary as at the reporting date using the Projected Unit Credit (PUC) method as recommended by LKAS 19 - "Employee benefits". Such actuarial valuations will be carried out once in every year.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the statement of comprehensive income in the period in which they arise.

In respect of any gains and losses arising from actuarial valuation that arise in calculating the Company's obligation in respect of employee benefits, is recognized in other comprehensive income statement and the related staff cost and other cost are recognized in the comprehensive Income statement. The company's liability arising on employees retirement benefits are not funded externally.

3.14 5. Short-term employee benefit

Short-term employee benefits obligations are measured on an undiscounted amount expected to be paid for related services provided by the employee.

3.15 Provisions and Contingent Liabilities

Provisions for operating expenses are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Company to settle the obligation and amounts can be estimated reliably.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation.

3.16 Capital commitments & contingencies

Contingent liabilities are possible obligations whose existence will be confirmed only by the occurrence uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured. Capital commitment and contingent liabilities of the Company are disclosed in the respective notes to the Financial Statements.

3.17 Events after the balance sheet date

The materiality of the events after the balance sheet date has been considered and appropriate adjustments and provisions have been made in the financial statements wherever necessary.

All contingent liabilities are disclosed as a note to the financial statements unless the possibility of an outflow of resources is remote.

4. Cash Flow Statement

The Cash Flow Statement has been prepared using the "Direct Method" of preparing Cash Flows in accordance with the Sri Lanka Accounting Standard (LKAS 7) "Statement of Cash Flows". Cash and cash equivalents comprise short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. The cash and cash equivalent include cash in hand, balances with banks, placements with banks, money at call and short notice

5. Revenue Recognition

Revenue is measured at the subsidized value received or receivable, and represents amounts receivable for sales of goods, stated net of Nation Building Tax (NBT). The Company recognizes revenue when the amount of revenue can be reliably measured, when it is probable that economic benefits associated with the transaction will flow to the entity and when the cost incurred or to be incurred in relation to the transaction can be measured reliably.

The following specific criteria are used by the Company for the purpose of recognition of revenue.

5.1 Sale of Fertilizer

The Company import and sells direct fertilizers to state agencies designated by government and mixed fertilizers in the wholesale and retail markets. Sales of goods are recognized at the point that the risks and rewards of the goods have passed to the customer. It is the point of dispatch from the store to buyer's vehicles.

5.1.1 Interest Income

Interest income is recognized as it accrues in the income statement using effective interest method.

5.1.2 Rent Income

Rent income is recognized on an accrual basis over the term of lease.

5.4 Gain and Losses on Disposal of Property, Plant and Equipment

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount, revaluation reserve and are recognized in the statement of comprehensive income.

5.5 Other Income

Other income is recognized on accrual basis.

6. Expenditure

All expenditure incurred in running of the business and in maintaining the property, plant & equipment in a state of efficiency has been charged to revenue in arriving at the profit for the year. For the purpose of presentation of income statement, the Directors are of the opinion that function of expense method present fairly the elements of the company's performance, hence such presentation method is adopted.

Expenditure incurred for the purpose of acquiring, expanding or improving assets of a permanent nature by means of which to carry on the business or for the purpose of increasing the earning capacity of the business has been treated as capital expenditure.

Repairs and renewals are charged to the income statement in the year in which the expenditure is incurred. The profit earned by the company is before income tax expense and after making provision for all known liabilities, impairments and depreciation of property, plant & equipment.

7 Withholding tax on dividends (WHT)

Dividends distributed out of taxable profit of the subsidiaries are subject to 10% deduction at source.

8 Basic earnings per share (EPS)

The financial statements present basic earnings per share (EPS) for its ordinary shareholders. The basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period.

9. Related party transactions

Disclosure has been made in respect of the transactions in which one party has the ability to control or exercise significant influence over the financial and operating policies/decisions of the other, irrespective of whether a price is charged.

9. New accounting standards issued not yet adopted

Standards issued but not yet effective up to the date of issuance of the Company's financial statements are listed below. This listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt those standards when they become effective.

9.1 SLFRS 13-Fair Value Measurement

This SLFRS defines fair value, set out in a single SLFRS a framework for measuring fair value; and requires disclosures about fair value measurements. This SLFRS will become effective for the Company from 1 April 2014. Earlier application is permitted. This SLFRS shall be applied prospectively as of the beginning of the annual period in which it is initially applied. The disclosure requirements of this SLFRS need not be applied in comparative information provided for periods before initial application of this SLFRS.

9.2 SLFRS 9- Financial instruments

The objective of this SLFRS is to establish principles for the financial reporting of financial assets and financial liabilities that will present relevant and useful information to

users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. An entity shall apply this SLFRS to all items within the scope of LKAS 39 financial instruments - recognition & measurement. The effective date of this standard has been deferred.

In addition to above below listed standards are also been changed, however the application of these standards do not have any impact on the financial statements of the company.

10 SLFRS 10-Consolidated financial statements

This standard becomes effective for annual periods beginning on or after 1 January 2014.

11 SLFRS 11-Joint arrangements

This standard becomes effective for annual periods beginning on or after 1 January 2014.

12 SLFRS 12 – Discloser of interest in other entities

This standard becomes effective for annual periods beginning on or after 1 January 2014.

Notes to the Financial Statements for the year ended 31 March 2015*(Expressed in Sri Lankan Rupees)***31.1 Revaluation Reserve - Year 2000 Rs.122,262,785**

Assets were re valued as at 14.02.2000 by chief value, Valuation department for Rs. 140,000,000 The book Value of the assets as at 31.03.1993, according to Audited balance sheet was Rs. 17,737,215. Since then no any records to show the value of assets

31.2 Revaluation Reserve 2007 Rs. 106.893,272

Revaluation of fixed assets in March 2007 generated this revaluation reserve amounting to Rs. 103,118,963

31.3 Revenue Reserve 1997 Rs. 61,016,519

A unidentified difference of Rs. 237,451,804 between total assets and total liabilities were revealed In the reconstructing of the balance sheet as at 20.01.1997. After eliminating revaluation reserve of 122,262,785 the balance of Rs 115,189,019 has been transferred to a Revenue Reserve. Current liabilities and current assets relating to previous periods that are revealed and settled later also have been adjusted to this Revenue Reserve account. Thus suspense balance of Revenue Reserve has reduced to Rs. 61,016,519.

The revaluation reserve relates to the revaluation surplus of property, plant and equipment, once the respective revalued assets have been disposed, portion of revalued surplus is transferred to retained earnings.

32 Retirement Benefits Obligation

	2015	2014
Balance as at 01 April	9,179,603	6,421,801
Expenses Recognized in Comprehensive Income (Note 32.1)	2,882,050	2,882,050
Payments made during the year	(148,983)	(124,248)
Adjustments in Retained Earning at the Date of Transition to SLFRSs	-	-
Balance as at 31 March	<u>11,912,670</u>	<u>9,179,603</u>

32.1 Expense Recognized in Comprehensive Income

Current Service Cost	590,559	590,559
Interest Charge for the Year	706,359	706,359
(Gain) / Loss Arising From Changes in the Assumptions	<u>1,585,132</u>	<u>1,585,132</u>
	<u>2,882,050</u>	<u>2,882,050</u>

These assumptions are developed by independent actuarial consultants are based on the management's best estimates of variables used to measure the retirement benefits obligation adopting Projected Unit Credit Method

The principal assumptions used are as follows.

Mortality	67/70	67/70
Discount Rate [%]	11	11
Future Salary escalation rate [%]	2	2
COLA rate [%]	Fixed	Fixed
SPA rate [%]	15	15
Staff Turnover Factor [%] - up to 50 yrs	1	1
- over 50 yrs	0	0
Retirement age [Yrs]	60	60

41	Events Occurring after Reporting Period		
	There were no events occurred, which required adjustments or disclosure in these financial statements between the 31 March reporting date and the date of authorization.		
42	Contingent liabilities		
a	The Company has contingent liabilities in respect of legal claims arising in conducting its ordinary course of business. Management is of the opinion that these claims can be successfully defended thus possibility of an outflow of resources for their settlement is remote. This evaluation is consistent with legal advices of the years, no provision has been made for such legal claims		
b	The Inland Revenue Department has issued assessment notices charging penalties of Rs. 357,589 for 2003/04, Rs. 6,080,959 for 2006/07, Rs.45, 362 2007/08 and Rs. 9,486,657 for 2009/10. The management is negotiating with the department for waved of the penalties and in the view that penalties could be get waved off.		
c	Transport charges to transport from CCF stores to miscellaneous Agrarian Services Centers and outstation CCF stores for a total sum of Rs. 3,522,255.43 has not been claimed from the year 2009 up to 2013 for unforeseen reason. CCF Ltd believes that these transporters will not lodge their claim in future for the recovery of the said amount. Since they have not been lodged their claim so far or submitted their bills for the payment, CCF ltd believe that this unaccounted amount shall not be paid.		

Figures in brackets indicates deductions.

d A case was filed during the year 2008 against CCF Ltd, claiming damage/ loss incurred to 'MS Midgulf International Pvt Ltd' Cyprus for a sum of Rs. 1,736,640,000/- in respect of the supply of 12,000 MT TSP fertilizers. This was due to the non-establishment of letter of credit for this supply bidder has filed case against CCF Ltd. This case was taken up at the Commercial High Court, Colombo and subsequently transferred to the Arbitration center for hearing. Currently this case has been hearing at the Arbitration center.

43 Contingent assets

a Vessel MV 'Lok Pratap' carried 11,400 MT MOP during April 2011 had completed discharging with 597 MT MOP short. In this regard CCF Ltd has filed a case against this vessel owner the Shipping Corporation of India to recover the loss incurred to CCF Ltd. This case is currently before the Court of Law for hearing.

44 Related Party Disclosures

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to as the 'reporting entity'. The Company's related parties include Government of Sri Lanka, State-Owned Enterprises, their related entities and key management personnel.

Transactions with Key Management Personnel

According to the Sri Lanka Accounting Standards LKAS.24 "Related Party disclosures" Key Management Personnel are those having responsibility for planning, directing and controlling the activities of the entity directly or indirectly. 45. Financial Instruments**45.1 Risk Management**

The Company's principal financial liabilities comprise of loans and borrowings and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The financial instruments of the company comprise of investments in term deposits and government securities, bank deposits, and short-term bank borrowings. The company also has trade receivables & payables and subsidy receivables arising from its core business activities. The main purpose of investment in short-term deposits and short-term borrowings are to raise and maintain liquidity for the operations.

Therefore, the Company is exposed to

- i. Credit risk
- ii. Market risk and
- iii. Liquidity risk.

45.2 Risk Management Framework

The Company's Board of Directors oversees the management of these risks. The company's senior management committee advises on financial risks and the appropriate financial risk governance framework for the Company.

The senior management committee provides assurance to the Company's Board of Directors that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Company policies. The Board of Directors reviews and agrees policies for managing each of these risks which are summarized below:

45.2.1. Credit Risk

Credit risk is the risk of financial loss to the Company, if a customer or counterparty fails to meet its contractual obligations, and arises principally from the Company's receivables from customers subsidy receivables from the General Treasury and investment securities from deposits held with banks and financial institutions, cash and cash equivalents (excluding cash in hand), .

Exposure to Credit Risk Company

The maximum risk exposures of financial assets that are subject to credit risk are equal to their carrying amounts. Following table depicts the maximum risk exposure of financial assets reporting dates

Risk Exposure to line items	31/03/2015	31/03/2014
Trade Receivables	30,586,801	28,952,494
Subsidy receivables from the General Treasury	16,744,755,872	14,227,295,457
Deposits held with Banks	364,874,542	333,016,116
Cash and cash equivalents	662,782,813	590,049,718
	17,803,000,028	15,179,313,785

45.2.1.1 Trade Receivables

The company trades mainly with Agrarian Service Centers, State Entities, Multipurpose corporative societies and authorized dealers. The management evaluates the credit worthiness of authorized dealers based on the past experience and other factors such as financial guarantees from them. In addition, outstanding balances are monitored on an ongoing basis by the management.

The age analysis of the company's trade receivables portfolio is as follows:

Aging of Receivables	Receivables (Rs.)	
	As at 31.03.2015	As at 31.03.2014
Up to 3 Months	6,425,759	271,918
3 to 6 Months	39,664	
6 to 12 Months		
More than One Year	50,492,440	52,457,395
	56,957,863	52,729,313

The company adopted the policy for reviewing debtors for their impairment and estimates losses incurred in respect of trade receivables. According to the impairment policy adopted, each specific customer is reviewed individually to measure the impairment loss. Note 26 to the financial statements illustrate the status of trade receivables and impairment losses recognized in relation to trade receivables.

45.2.1.1.2 Subsidy Receivables

Under the fertilizer subsidy scheme CCF has to sell the main paddy fertilizer for Rs. 7,000 per MT and other fertilizer at Rs. 24,000 per MT. The difference between imported cost plus margin for operational expenses are reimbursed by the General Treasury. The subsidy receivable is expected to recover within a period of 180-270 days. The company's exposure to credit risk arises from default in meeting contractual obligation of the General Treasury, with a maximum exposure equal to the carrying amount of the receivables.

45.2.1.1.3 Other Financial Assets

Credit risk arising from other financial assets of the company comprises deposits held with banks and financial institutions, cash and cash equivalents. The company's exposure to credit risk arises from default in meeting contractual obligation of contractual parties, with a maximum exposure equal to the carrying amount of these financial instruments. The company manages its credit risks with regard to these financial instruments by mainly placing its fund with state financial institutions and other government institutions.

45.2.3 Market Risk

Market risk' is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

The Company has considered internal and external factors which are critical in managing the business in carrying out the marketing operation. Internal factors are products, ordering, warehousing and distribution. The identified external factors are competition, legal and environment. Internal elements are captured through the process audits, while the external risks are captured through enhanced training programs.

45.2.3.1. Currency Risk - Foreign Exchange Risk

The company is sensitive to the fluctuations in exchange rates and is principally exposure to currency risk arising from fluctuations in the value of US Dollar (USD) against the Sri Lankan Rupee after Central Bank of Sri Lanka allowed the Sri Lanka Rupees to freely float against USD during the reporting period. The company's functional currency in respect of imports fertilizers is USD however settlements of imports are made through rupee accounts.

Foreign Exchange losses and gains were as follows:

		Year ended 31.03.2015
Exchange Loss	Rs.	(78,534,982)
Exchange Gain	Rs	13,971,244

The following significant exchange rates were applied during the year:

Year	Average Rate		Reporting Date – Spot Rate	
	2015	2014	2015	2014
1 USD = LKR	133.49	132.60	134.73	132.17

45.2.3.2 Interest Risk

Interest rate risk is the risk to the Company's earnings and economic value of equity ("EVE") arising from adverse movements in interest rates. The company's exposure to interest risk is the changes in market interest rates relate to the interest bearing borrowings with a fixed interest rate and bank deposits.

Interest rate risk is the exposure of a company's financial condition to adverse movements in interest rates. Accepting this risk is a normal part of operation of a company and can be an important link to profitability,

Interest Bearing Borrowings amounting as at 31.03.2015 - was Rs. 12,482,741,827 (31.03.2014 –Rs. 9,299,899,742.) That carried interest at fixed rates. The company has bank balances including term deposits placed with state banks. The company monitors interest rate risk by actively monitoring interest rate movements. Company's currency risk exposure is remains in terms of usance bills guaranteed by the General Treasury

45.2.3.3 Liquidity Risk

Liquidity risk is the risk of not having sufficient funds to meet its financial commitments in a manner. As they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient cash to meet its liabilities when due, under both normal and unexpected conditions, without incurring unacceptable losses.

45.2.3.4 Operational Risk

Operational Risk is the risk of direct or indirect losses incurred due to inadequate internal processes, systems, human failures and or external events other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. The majority of losses that have operational risk are due to weakness in internal control framework.
